LUMPY MAIL?

What Is Lumpy Mail?

“Lumpy Mail,” also known as dimensional mail, is a creative and attention-grabbing marketing strategy. Unlike traditional mail, lumpy mail refers to mailing items that are not flat, such as promotional gadgets or sample products. The unconventional and tactile nature of lumpy mail immediately captures the recipient’s curiosity. Lumpy mail is opened around 100% of the time, because whether it’s a mouse pad, calendar or custom sticky notes, we just have to know what’s inside!

Yes, Direct Mail Is Still A Thing

Traditional direct mail, including lumpy mail, is often underestimated in our digital-dominated world. However, amidst the overwhelming presence of online advertising, lumpy mail stands out as a refreshing and engaging marketing strategy. Because let’s be honest...

Which of these envelopes are you going to open first?

RESPONSE RATES

According to the Data & Marketing Association (DMA), the response rate for direct mail to an existing customer list was around 9% in 2020. For a prospect list, the response rate was around 5.3%.

Phygital Campaign Magic

Combining direct mail with digital channels can enhance overall campaign performance. According to a study by the Direct Marketing Association (DMA), campaigns that used direct mail and one or more digital media experienced a 118% lift in response rate compared to using direct mail alone. Combining lumpy mail with digital elements enhances the overall impact of the campaign by bridging the gap between physical and digital marketing.

What to send?

Mail with personality stands out in a crowded mailbox. Some of our favorites:

- Magnets – Calendars, Team Schedules, Major Events
- Mouse Pad
- Branded Sticky Notes
- Loyalty Card or Coupon Card
- Travel Bag Tags
- Cool Stickers
- Key Chains with Flash Light
- Socks
- Bottle Opener
- Stress Balls

GREAT IDEAS TO GROW YOUR BRAND

KITTING MADE EASY

Let Symphonix orchestrate your custom campaign from start to finish! From initial ideas to delivery, we will simplify the kit building journey.

1: Help Define Your Strategy and Goals

We work with you to identify the target audience, timeline, campaign intent, and desired budget.

2: Procure Quality Products

We customize a set of products, packaging, and messaging that will align with your campaign goals.

3: Customize the Technology

Our custom technology solutions make it easy to execute. One time execution or evergreen campaign? Same kit or tiered selections? Pre-select the products or allow target audience to select?

4: Orchestrate Precision Fulfillment

Our sweet spot is bringing everything together and executing that final mile of distribution to recipients.

Tie Together Digital Campaigns With Retail POS

Point of Sale (POS) materials are important, particularly for franchises, and serve as a tangible representation of the brand at the crucial moment of purchase. A well-designed point of sale kit improves campaign efficiency by providing a standardized toolkit that aligns with brand guidelines and simplifies the franchise management experience.

Building A More Engaged Workforce With Employee Campaigns

Employee Welcome Kits

Create a positive first impression.

Recognition Kits

Celebrate success and show appreciation to top performing employees.

Anniversary Kits

Show commitment and acknowledge an employee's loyalty.

Employee Thank You Campaign Kits

Express gratitude and reinforce a sense of belonging.

Break Through With Prospects Using Sales Kits

Allowing prospects to touch and feel your product may be just what you need to facilitate that connection. If you have a prospective client that needs an extra push, gift kits can be a great way to get things moving in the right direction.

Help Team Members And Clients Embrace New Products

New product kits are an excellent way to introduce a new product line to current clients. Keeping them up to date and in the know will nourish that client relationship and hopefully keep them coming back for more.

Package Up Your Event Presence

The weeks leading up to trade shows and events can be hectic as employees rush to plan trips among their standard workload. An event kit can take all the guess work out of gathering sales tools and arm your team with success.
